

**CALL FOR EXPERTS TO REPRESENT THE ENVIRONMENTAL INTERESTS IN THE DEVELOPMENT OF
EUROPEAN STANDARDS RELATED TO WATER QUALITY AND RELEASE OF HAZARDOUS
SUBSTANCES FROM CONSTRUCTION PRODUCTS**

RESPONSE REQUESTED BY NO LATER THAN 31 MARCH 2015

ECOS is looking for experts to provide expertise and represent, on behalf of ECOS, the environmental interests in the development of standards related to water quality and the release of hazardous substances from construction products, elaborated under the European Committee for Standardisation (CEN).

ECOS is an umbrella organisation representing 36 European environmental NGOs in the development process of European standards and technical product policies related to various topics such as water analysis, waste, Ecodesign and energy labelling. More information is available at www.ecostandard.org.

In particular we are looking for experts in the following areas:

Technical body name	Standardisation Technical Committee responsible
Water Analysis	CEN/TC 230
Construction Products - Release of Hazardous Substances into Water	CEN/TC 351, WG 1

The tasks of the expert will include:

- To monitor the relevant work of the one or several specific technical committees;
- To participate in and present ECOS' views in the selected standardisation committee meetings and report back to ECOS Secretariat (circa 2-3 meetings a year per technical committee);
- To prepare technical input, comments and position papers in close collaboration with the ECOS Secretariat;
- To regularly exchange with interested ECOS member organisations and other experts (by e-mail).

Activities are expected to start in April 2015.

The remuneration of the expert will be as follows:

- Daily expert fees (€ 400,-) for preparation, participation in meetings and reporting, as well as for any other tasks to be performed in between meetings;
- Per diems to cover accommodation and subsistence costs (€ 170,-);
- Reimbursement of travel costs.

ECOS reimbursement terms and conditions are available on request.

Please send a cover letter and CV, including references of relevant work and indication of the TC you are interested into info@ecostandard.org, as soon as possible and at the latest by the 31st of March 2015.
