

Brussels, 26 September 2018

**Jean-Claude Juncker**  
**President**  
**European Commission**  
**Rue de la Loi 200**  
**B-1049 Brussels**  
**Belgium**

Dear President Juncker,

We, 55 organisations in Europe, are writing to urge you not to delay or minimise the package of Ecodesign and Energy Labelling regulations currently under discussion.

This package would bring significant energy savings, equivalent to up to 5% of the EU electricity consumption, and introduce innovative requirements to facilitate repair and recycling of products.

We call on you to avoid unnecessary delays and enable the 20 measures to be adopted immediately. These measures are crucial to implementing EU climate, energy and circular economy objectives.

Yours sincerely,

**Agence de l'environnement et de la maîtrise de l'énergie (Ademe)**
