

Call for experts

to represent ECOS in the field of

Heating appliances in the built environment

Application deadline: 31/01/2022

ECOS is looking for experts in the field of heating appliances to represent and defend environmental interests in the development of standards and related policies. Our experts provide us with technical and scientific input and represent ECOS in standardisation processes and multi-stakeholder discussions.

ECOS is an international NGO with a network of members and experts advocating for environmentally-friendly technical standards, policies and laws. With 20 years of experience, ECOS represents over 50 national and European members, including the European Environmental Bureau, Friends of the Earth Europe, Transport & Environment and WWF. ECOS is a partner organisation of the standardisation organisations CEN and CENELEC, a member of ETSI and a liaison organisation to IEC & ISO. Learn more: www.ecostandard.org

Since the energy crisis sparked in early 2022, heating appliances in buildings have been on the spotlight, and so too the policies and standards that help reduce our dependency on fossil fuels. Heat pumps are one of the tangible solutions to make the transition happen.

Interested candidates should be able to demonstrate in-depth technical and scientific knowledge on:

- The role of heat pumps in heating decarbonisation (components, configurations, applications).
- The energy efficiency and pollutants emission calculation methodologies for heating appliances.
- Knowledge of building insulation, ventilation and indoor air quality is considered a plus.

Experience with and understanding of EU product policy will be considered a strong asset. Candidates should demonstrate strong commitment to environmental NGO values and have proven written and oral communication and negotiation skills. Fluency in English and willingness to travel are required.

The nominated experts will potentially:

- Participate in technical meetings of [CEN](#) (and possibly [ISO](#)) meetings to promote ECOS position;
- Prepare technical input through official comments and contribution to ECOS position papers;
- Report to and liaise with the responsible ECOS Programme Manager;
- Exchange information with ECOS member organisations and other experts when needed.

ECOS offers:

- A daily fee for preparation of meetings, participation and reporting, as well as other relevant tasks;
- Reimbursement of travel costs;
- Per diem to cover accommodation and subsistence costs.

ECOS - Environmental Coalition on Standards

Rue d'Edimbourg 26 · 1050 Brussels · Belgium
