# 23 KG

**of electrical and electronic waste  
per person per year in france**

**AN ECOLOGICAL AND SOCIAL CHALLENGE**

# HOP IN BRIEF

**HOP - Halte à l'obsolescence programmée has been fighting for 10 years to extend the lifetime of products**

- A community of 65,000 people
- 8 employees

## **Significant victories :**

Repairability index

Repair bonus

A 25 milion euro fine for Apple

## **HOP is behind :**

The national repair day in France

The “durability club”

# THE URGENT NEED FOR ACTION

## **To protect the environment :**

- a smartphone travels around the world 4 times before landing in our hands
- 80% of a smartphone's environmental footprint is generated during production

## **To protect consumers :**

- consumers' powerlessness facing those practices that make them lose money

# SIGNIFICANT VICTORIES

- Minimum requirements for ecodesign (hard law) in France and Europe
- Incitative measures : repair/durability index, repair bonus, ...

# WHAT WE ARE STILL FIGHTING FOR

- The inclusion of **spare parts prices** in the European reparability index
- Extending the French index to other products
- Effective regulations for the reparability of electric car batteries
- The condemnation of brands that practice planned obsolescence
